Re: TDEC Approval Letter to the Erratum Pages for the East Tennessee Technology Park Main Plant Area Groundwater Focused Feasibility Study, Oak Ridge, Tennessee (DOE/OR/01-2894&D2)

Dear Mr. Petrie

The Tennessee Department of Environment and Conservation (TDEC) Division of Remediation, Oak Ridge Office (DoR-OR) received the above referenced submittal on February 1, 2023. The Erratum for the Main Plant Area Groundwater Focused Feasibility Study has been reviewed pursuant to the Federal Facility Agreement for the Oak Ridge Reservation. The State has no additional comments regarding the contents of this document; therefore, the State approves this erratum and the associated document.

The date of this approval letter initiates TDEC's start of the review period for the Proposed Plan for Interim Record of Decision for Groundwater in Main Plant Area at East Tennessee Technology Park (DOE/OR/01-2921&D2), which was received on January 13, 2023. TDEC delayed initiating review of this document because it was submitted prior to submittal and approval of the Main Plant Area Groundwater Focused Feasibility Study.

TDEC commends this step addressing these 6 initial VOC source zones which contribute to contaminated groundwater at ETP, and we look forward to working with the tri-parties to continue resolution of the remaining groundwater work across the Main Plant Area in a timely and effective manner.

If you have questions or comments concerning the contents of this letter, please feel free to reach out to Heather Lutz at heather.lutz@tn.gov or (865) 220-6574.

Sincerely

Randy C
Young
