Dear Mr. Petrie

Re: Remedial Design Report/Remedial Action Work Plan for K-31/K-33 Area Groundwater at the East Tennessee Technology Park Oak Ridge, Tennessee (DOE/OR/01-3001&D2)

The Tennessee Department of Environment and Conservation (TDEC) has completed a review of the revised Remedial Design Report/Remedial Action Work Plan for K-31/K-33 Area Groundwater at the East Tennessee Technology Park, Oak Ridge Tennessee (DOE/OR/01-3001&D2) pursuant to the Federal Facility Agreement for the Oak Ridge Reservation. The document was received by TDEC on November 19, 2025. TDEC approves this document as submitted.

This document contains reference to a new document titled "UCOR Annual Modeling Report," which is identified as the intended location for reporting of modeling results for this work scope. TDEC requests that the U.S. Environmental Protection Agency and TDEC have review and engagement in the model, including parameter assumptions, as this model is intended to drive decisions. The project team should agree on a final deliverable format for this information (e.g., either as a standalone document or inclusion in a primary or secondary document).
